Elden Ring [32|64bit] 2022

1. Create Your Character To create your own unique avatar, there is no limit to the number of items that you can equip. However, some of the items will be useless at the beginning. Therefore, if you want to prepare for the great adventure ahead, start with the items necessary to become a reputable warrior in order to learn their potentials and abilities. The equipment screen has a large amount of items that you can equip at the beginning. You can use the four categories: Body, Left Arm, Left Leg and Right Arm, to change their size, adding or removing equipment. For example, if you add the right arm of a warrior, the strength will be strengthened, the weight will be increased, the attack damage will increase, and so on. The equipment can be changed according to a variety of choices (for example, whether the size is large or small or whether the size is light or heavy, etc.).

2. Learn Your Skills In order to move forward in the adventure, you will need to learn your skills. You can level up in skill abilities using one of the skills and one of the runes. You can level up your skills using the following method. You will need to learn and use the skills until a certain level of the skills is obtained. You can also use the runes. You can use the runes that you have equipped in order to learn new skills.

3. Equipment Even if you have raised the upper limit of your number of equipped items, you can still raise the upper limit. You can change the equipment of your avatar by using the equip equipment function. The equipment that can be equipped as you prepare for the adventure are also displayed when you equip a new equipment. You can use the gear that you have equipped in order to boost your skills. The following screen is displayed when equipment is used.

4. New character creation equipment You can increase the number of the items that you have equipped by equipping the new equipment. You can use these new items in order to change the appearance of your avatar, including the color of the eyes. The following screen is displayed when you change the outfit. The appearance of your avatar can be freely changed by equipping the new equipment.

5. Prepare for a Serious Adventure Here is the progression screen of the game. You can enter your name and continue the game.

6. Adventure Choose either
